

STUDY PLANNER- HOW TO USE

STEP 1:

Student Details

Enter your name, USN, branch, and semester to begin.

Enter Student Details

Name:

USN:

Branch:

Semester:

STEP 2:

Study Availability

Select the number of days, weeks, months, and weekdays available for study.

Select Your Study Availability

Duration

Days:

Weeks:

Months:

Select Days of the Week

- ☐ Sunday
- ☒ Monday
- ☒ Tuesday
- ☒ Wednesday
- ☐ Thursday
- ☐ Friday
- ☐ Saturday

STEP 3:

Course and Module Selection

Choose the subject and modules you want to cover.

Choose your preferences carefully to build an effective and achievable study plan.

Please choose the subject/course you want to cover

☒ Big Data Analytics (4 Credits)

Select Module

☒ Module 1
☐ Module 2
☐ Module 3
☒ Module 4
☐ Module 5

Select Topics

No topics loaded yet.

STEP 4:

Load Topics

Click Load Topics to view topics from the selected modules.

Select Topics

☒ Classification of data (Weight: 1, Hours: 1.0)
☐ Characteristics, Evolution and definition of Big data (Weight: 2, Hours: 1.5)
☐ What is Big data, Why Big data (Weight: 2, Hours: 1.5)
☐ Traditional Business Intelligence Vs Big Data (Weight: 3, Hours: 2.0)
☒ Typical data warehouse and Hadoop environment (Weight: 3, Hours: 2.0)
☐ Big Data Analytics: What is Big data Analytics (Weight: 1, Hours: 1.0)
☐ Classification of Analytics (Weight: 2, Hours: 1.5)
☒ Importance of Big Data Analytics (Weight: 1, Hours: 1.0)
☐ Technologies used in Big data Environments (Weight: 2, Hours: 1.5)
☒ Few Top Analytical Tools , NoSQL, Hadoop (Weight: 3, Hours: 2.0)
☐ Introduction to Hive: What is Hive (Weight: 1, Hours: 1.0)
☒ Hive Architecture (Weight: 3, Hours: 2.0)
☐ Hive data types (Weight: 2, Hours: 1.5)
☐ Hive file formats (Weight: 2, Hours: 1.5)
☒ Hive Query Language (HQL) (Weight: 3, Hours: 2.0)
☐ RC File implementation (Weight: 2, Hours: 1.5)
☐ User Defined Function (UDF) (Weight: 2, Hours: 1.5)
☐ Introduction to Pig: What is Pig (Weight: 1, Hours: 1.0)
☐ Anatomy of Pig (Weight: 2, Hours: 1.5)
☐ Pig on Hadoop (Weight: 2, Hours: 1.5)
☒ Pig Philosophy (Weight: 1, Hours: 1.0)
☐ Use case for Pig (Weight: 2, Hours: 1.5)
☐ Pig Latin Overview (Weight: 2, Hours: 1.5)
☒ Data types in Pig (Weight: 2, Hours: 1.5)
☒ Running Pig (Weight: 1, Hours: 1.0)
☒ Execution Modes of Pig (Weight: 2, Hours: 1.5)
☐ HDFS Commands (Weight: 2, Hours: 1.5)
☐ Relational Operators (Weight: 3, Hours: 2.0)
☐ Eval Function (Weight: 3, Hours: 2.0)
☐ Complex Data Types (Weight: 2, Hours: 1.5)
☐ Piggy Bank (Weight: 1, Hours: 1.0)
☐ User Defined Function (Weight: 3, Hours: 2.0)
☐ Pig Vs Hive (Weight: 3, Hours: 2.0)

STEP 5:

Generate Routine

Click Generate Routine to create the final study schedule.

Your Personalized Success Plan is Ready.

Total Study Hours: 15.0

Month	Week	Day	Topic	Hours
Nil	1	Monday	Classification of data, Pig Philosophy	2.0
Nil	1	Tuesday	Typical data warehouse and Hadoop environment, Data types in Pig	3.5
Nil	1	Wednesday	Importance of Big Data Analytics, Running Pig	2.0
Nil	2	Monday	Few Top Analytical Tools , NoSQL, Hadoop, Execution Modes of Pig	3.5
Nil	2	Tuesday	Hive Architecture	2.0
Nil	2	Wednesday	Hive Query Language (HQL)	2.0
